Some days ago we printed a lengthy editorial from the Wichita Eagle on the political situation in this State, in which it was argued that the Republican party in Kansas was badly demoralized and unless better party management was shown in the future we would again find ourselves in the minority. In this morning's Commonwealth will be found a well-written editorial on practically the same subject, from the Hiawatha World. CASH HENDERSON:

DEAR SIR-We have concluded to give up clothing to make room for a large stock of dry goods and carpets. I want you to make prices on clothing that will positively sell it. We have about \$10,000 worth of clothing, and I want to close out, if possible, within the next 30 days. The people will soon find out that it is no advertising dodge. Give your customers the benefit of these bargains, and they will appreciate them. It will not take long for them to find out that you are selling clothing for less than it costs to manufacture. In your letter you say you have closed out all old goods, and that your stock is now in the best shape of any in the State. You will have no trouble with such a stock, if you will make low prices.

With regards, I remain yours truly,

MORRIS KOHN.
